Purpose of Deputation
I disagree with the petition to remove the sidewalk, we had built our house with the understanding a sidewalk was to be installed. We have a 3 year old son and do not want him on the road. Cars on the street adjacent to ours "Courtland Street" already are going to fast when we are walking with him and our only option is to be on the road. This raises a safety concern. I also feel that with the street only having 7 houses and 1/3 of the way complete I feel the sidewalk petition is unnecessary and premature as he is the only child on the street as of now. By removing the sidewalk you are going to deter many families from building there. I strongly disagree with this petition.
