Angle driveway entrances, driving right into an intersection, wow interesting. Houses angle in contrast to all other houses. That will look weird. Cram them in more bang for the buck. Sacrificing continuity for maximum profit. Thanks Josh not your doing. Thanks for the email. When do they plan the project?

Dear Mr. Mueller,

My name is and I am one of the neighbour of the said subject land. My opinion is this proposal is to enhance the pocket of the builder and non for our neighborhood. I am against this proposal mainly because I think the property is too small for the project and it doesn't bode well to our community. This is my humble opinion.
